### Tuesday, August 31:

- Central High School: Six students have tested positive. After conducting contact tracing, we have identified nine other unvaccinated close contacts. All involved are now in quarantine and will return to school based on the [protocols outlined here](#). As a reminder, vaccinated people do not need to quarantine and can keep going to school even if determined to be close contacts unless they are experiencing COVID-19 symptoms. Quarantined students will continue with their schoolwork from home using our [Schoolology](#) learning management system.
- North View Elementary: A student has tested positive. After conducting contact tracing, we have identified six other unvaccinated close contacts. All involved are now in quarantine and will return to school based on the [protocols outlined here](#). As a reminder, vaccinated people do not need to quarantine and can keep going to school even if determined to be close contacts unless they are experiencing COVID-19 symptoms. Quarantined students will continue with their schoolwork from home using our [Schoolology](#) learning management system.
- Southside Middle School: A student, two staff members and a teacher have tested positive. After conducting contact tracing, we have identified three other unvaccinated close contacts. All involved are now in quarantine and will return to school based on the [protocols outlined here](#). As a reminder, vaccinated people do not need to quarantine and can keep going to school even if determined to be close contacts unless they are experiencing COVID-19 symptoms. Quarantined students will continue with their schoolwork from home using our [Schoolology](#) learning management system.
- East Washington Academy: Three students and a staff member have tested positive. After conducting contact tracing, we have identified six other unvaccinated close contacts. All involved are now in quarantine and will return to school based on the [protocols outlined here](#). As a reminder, vaccinated people do not need to quarantine and can keep going to school even if determined to be close contacts unless they are experiencing COVID-19 symptoms. Quarantined students will continue with their schoolwork from home using our [Schoolology](#) learning management system.
- Longfellow Elementary: Three students have tested positive. After conducting contact tracing, we have identified nine other unvaccinated close contacts. All

involved are now in quarantine and will return to school based on the [protocols outlined here](#). As a reminder, vaccinated people do not need to quarantine and can keep going to school even if determined to be close contacts unless they are experiencing COVID-19 symptoms.
