Course Description:
The Healthy Decision Making Leadership Course is designed to leverage high school students' expertise in order to revise the current high school Healthy Decision Making unit. Those students who participate in the course will be the primary decision makers throughout the revision process.

Course Overview
This is a semester-long hybrid course with the expectation that students will be available to meet 1.5-2 hours after school 5-6 times throughout the semester. All other work will be completed independently or within small groups. Students will earn .5 elective credits through Jeffco Virtual Academy (JVA).
